Document Digitalization Service

Prepared for **Heng Hup Holdings Limited**
April 2026

What We Provide

End-to-end document processing built for your operations

01

Cloud OCR & AI Processing

Intelligent document scanning powered by cloud-based optical character recognition and large language models. Extracts structured data from scanned documents with high accuracy.

02

Custom Form Templates

Purpose-built templates tailored to your specific document types. Designed in collaboration with your team to match your exact data fields and workflows.

03

3-Month Pilot Program

Dedicated onboarding period to calibrate accuracy with your real documents. Iterative refinement based on your feedback before billing begins.

04

Ongoing Support

Direct access to the team that built your system. Continuous monitoring, accuracy optimization, and responsive technical support included in every plan.
