PRICING PROPOSAL

Document Digitalization Service

Prepared for **Heng Hup Holdings Limited**
April 2026

What We Provide

End-to-end document processing built for your operations

01

Cloud OCR & AI Processing

Intelligent document scanning powered by cloud-based optical character recognition and large language models. Extracts structured data from scanned documents with high accuracy.

02

Custom Form Templates

Purpose-built templates tailored to your specific document types. Designed in collaboration with your team to match your exact data fields and workflows.

03

3-Month Pilot Program

Dedicated onboarding period to calibrate accuracy with your real documents. Iterative refinement based on your feedback before billing begins.

04

Annual Page Pool & Support

420,000 pages per year shared across all branches — no monthly expiry, no per-branch limits. Automatic alerts at 80% usage. Priority support with dedicated account manager on commitment plans.

How We Compare

API-only vs fully managed service

DIY with Cloud APIs

- ✗ Raw OCR API only — you build the rest
- ✗ No custom form mapping or templates
- ✗ No dedicated support team
- ✗ You hire developers, manage infra
- ✗ No iteration on your documents
- ✗ Monthly quota expires — no annual pool

RM 0.04 – 0.07 / page

API cost only. Based on Azure, AWS, Google published rates. Does not include developer time, infra, or maintenance.

Our Service

- ✓ Custom-built for your documents
- ✓ Tailored form templates included
- ✓ Direct access to our engineering team
- ✓ Processing + infra + support all-in
- ✓ Continuous improvement & iteration
- ✓ Annual page pool shared across branches

From RM 0.143 / page

Complete managed service. No hidden costs, no developer hires, no infrastructure to manage.

Setup & Onboarding

RM 30,000 one-time — covers development, customisation, and pilot

MONTH 1

Development

Custom OCR pipeline build, cloud infrastructure setup, form template design, and initial system integration.

MONTH 2 – 3

Customisation & Pilot

Calibrate accuracy with your real documents. Iterative refinement of templates based on your team's feedback.

MONTH 4+

Service Begins

Annual billing starts based on your selected plan. Full platform access, ongoing support, and continuous optimisation.

RM 30,000 covers all three months — no additional charges until your selected plan begins in Month 4

Subscription Plans

Commitment plans include a 420,000-page annual pool — shared across all branches, no monthly expiry

FLEXIBLE
Monthly

RM **7,000** /mo

RM 0.20 per page · 35,000 pages/month

- No minimum commitment
- Cancel anytime
- 35,000 pages per month
- Full platform access
- Email & WhatsApp support

RECOMMENDED
12-Month BEST PLAN

RM **6,000** /mo

RM 0.171 per page · 420,000 pages/year

- **Annual page pool** — shared across all branches
- No monthly expiry — use at your own pace
- Automatic alerts at 80% usage
- Priority support (see next slide)
- Dedicated account manager
- Quarterly optimisation reviews

Save ~14% vs monthly

BEST VALUE
24-Month

RM **5,000** /mo

RM 0.143 per page · 420,000 pages/year

- **Annual page pool** — shared across all branches
- No monthly expiry — use at your own pace
- Automatic alerts at 80% usage
- Priority support (see next slide)
- Rate locked for full 24 months
- Dedicated account manager

Save ~29% vs monthly

Annual pool: 420,000 pages valid for 12 months from billing start — all branches draw from one shared pool · Alerts at 80% and 100% usage · Real-time dashboard for all branches

After contract ends: Renew at the same rate for another term, or switch to monthly at RM 7,000/mo · No price increase during contract term

Enterprise

Low upfront, pay only for what you use — all maintenance and infrastructure included

ONE-TIME SETUP

RM 20,000

Covers development, pilot, onboarding, and first batch of templates during 3-month setup period.

PAY PER USE

RM 0.14 /page

Billed monthly based on actual usage. No minimum volume, no annual commitment. Infrastructure, maintenance, and support already costed in.

30,000 pages/month = RM 4,200 · Pay only what you process

COSTED INTO PER-PAGE RATE

- ✓ Cloud infrastructure
- ✓ OCR & AI processing
- ✓ System maintenance
- ✓ Security patches
- ✓ Usage dashboard
- ✓ Data retention (12 mo)
- ✓ Email & WhatsApp support
- ✓ Bug fixes & incidents
- ✓ Monthly usage reports
- ✓ Minor template tweaks
- ✓ Backups & DR
- ✓ Monitoring & alerts

QUOTED SEPARATELY

- + New document templates
- + Branch onboarding
- + On-site visits
- + ERP / accounting integration
- + Custom development
- + After-hours support

No commitment. Month-to-month billing based on actual pages processed. Scale up or down freely. Ideal for organisations that want cost transparency and operational flexibility.

Priority Support

Included with 12-month and 24-month plans

Included in Your Plan

- ✓ 4-hour response time (Mon–Fri, 9 AM–6 PM)
- ✓ Dedicated account manager
- ✓ Email & WhatsApp support channels
- ✓ Real-time usage dashboard for all branches
- ✓ Automatic alerts at 80% and 100% pool usage
- ✓ System maintenance & security patches
- ✓ Quarterly optimisation reviews
- ✓ Monthly usage & accuracy reports
- ✓ Minor template adjustments (field tweaks, formatting)
- ✓ Bug fixes & incident resolution

Available as Add-Ons

- + New document type templates (quoted per template)
- + Major template restructuring
- + New branch onboarding & training sessions
- + On-site visits (quoted per visit)
- + After-hours & weekend support
- + Custom integrations (ERP, accounting systems)
- + Custom feature development
- + Historical data migration & backfill
- + Additional language support (BM, Chinese, Tamil)
- + Formal compliance audit support

Monthly plan includes standard support — email & WhatsApp during business hours, next-business-day response

12 & 24-month plans include everything on the left — priority queue, 4-hour response, dedicated account manager

Additional Usage

When your annual pool runs out — or if you need more capacity

Postpaid Overage

Billed end of billing cycle

If your branches exhaust the annual pool before the year ends, additional pages are processed automatically and billed **postpaid** at the end of the billing cycle.

How it works

1. You receive alerts at **80%** pool usage
2. Service continues uninterrupted past 100%
3. Overage billed at end of billing cycle
4. **No branch disruption** — no approvals needed to keep processing

Overage rate

Postpaid overage is billed at **your plan's per-page rate** — no penalty markup. Exact rate depends on your plan tier.

Need More Capacity?

Top-up your annual pool or increase base capacity

If you anticipate sustained higher volumes, we can arrange a **pool top-up** or capacity increase. This requires advance discussion because we may need to scale cloud infrastructure and adjust billing with external providers.

- **2 weeks advance notice** required for capacity scaling
- **Custom pricing** based on volume and duration
- **Infrastructure scaling** may be needed for sustained high volume

Contact your account manager to discuss. We will provide a quote based on your projected volume and timeline.

Appendix: Cloud OCR Vendor Pricing

Published rates for structured extraction — API cost only, no support or templates included

VENDOR	PRODUCT	USD / PAGE	MYR / PAGE	SCOPE
Azure	Document Intelligence (Prebuilt)	$0.01	RM 0.044	Invoice / receipt / ID. API only.
Azure	Document Intelligence (Custom)	$0.01–0.05	RM 0.044–0.22	Custom template train + extract. API only.
AWS	Textract (Analyze Document)	$0.015	RM 0.066	Key-value pairs + tables. API only.
Google	Document AI (Form Parser)	$0.065	RM 0.286	Key-value, tables, checkboxes. API only.
Google	Document AI (Invoice Parser)	$0.065–0.10	RM 0.286–0.44	Structured invoice fields. API only.
ABBYY	Vantage Cloud	~$0.05–0.12	RM 0.22–0.53	Pre-trained skills. Setup $5K–$25K extra.
Nanonets	Pro	~$0.10–0.30	RM 0.44–1.32	Custom models + API. Self-service only.
Docsumo	Business	~$0.05–0.10	RM 0.22–0.44	Pre-trained + custom. Self-service only.
Ours	**Fully managed (24-mo plan)**	**—**	**RM 0.143**	**Templates + support + infra. All included.**

What API-only means: You get an HTTP endpoint. You still need developers to build the pipeline, design templates, host infrastructure, handle errors, and maintain the system. Those costs dwarf the API fee.

Sources: Azure, AWS, and Google pricing pages (Q1 2026). ABBYY, Nanonets, Docsumo from published plans and partner disclosures. MYR at 1 USD = 4.40 MYR.

Appendix: Service Breakdown

What's bundled in your plan vs available as add-ons

INCLUDED IN PLAN

SERVICE	DETAILS
OCR & AI processing	Up to 420K pages/year pool
Cloud compute & hosting	Inference servers, app hosting
Storage & database	Document images, extracted data, DB
Backups & disaster recovery	Automated daily backups
Usage dashboard	Real-time, all branches, 80% alerts
Email & WhatsApp support	Mon–Fri business hours
Bug fixes & incidents	4-hr response (commitment plans)
System maintenance	Patches, updates, security, uptime
Minor template tweaks	Field adjustments, formatting
Monthly reports	Usage, accuracy, per-branch stats
Data retention	12 months standard
Account manager	Dedicated (12 & 24-mo only)
Quarterly reviews	Optimisation sessions (12 & 24-mo)
Postpaid overage	Uninterrupted; billed end of cycle

AVAILABLE AS ADD-ONS

SERVICE	PRICING
New document type template	Quoted per template
Major template restructuring	Quoted per project
New branch onboarding	Per branch (setup + training)
Additional training sessions	Per session
On-site visits	Per visit + travel expenses
After-hours / weekend support	Premium hourly rate
ERP integration (SAP, Oracle)	Quoted per integration
Accounting system integration	Quoted per integration
Custom feature development	Quoted per feature
Historical data migration	Quoted based on volume
Additional language support	Per language (BM, CN, Tamil)
Extended data retention	Per year beyond 12 months
Capacity top-up (pool increase)	Quoted; 2 weeks notice
Compliance / audit support	Per engagement
